**HealthCare Administrative Solutions, Inc.  
Welcomes CeltiCare Health as a Member Organization**

*Boston, Mass., July 1, 2015*—HealthCare Administrative Solutions, Inc. (HCAS) is pleased to announce the addition of **CeltiCare Health** as a member organization. By joining HCAS, CeltiCare Health will participate in HCAS administrative simplification efforts, including the streamlined provider credentialing process that many local health plans employ in Massachusetts and throughout New England. CeltiCare Health will be credentialing providers through HCAS beginning July 1, 2015.

CeltiCare Health is a managed care organization that provides health insurance coverage to members in Massachusetts. Jay Gonzalez, President and Chief Executive of CeltiCare Health said, “Through our collaboration with HCAS, our physicians and allied health providers will be able to experience a streamlined credentialing process that saves time and enables providers to focus less on administrative work and more time on patient care.”

In 2007, HCAS implemented a unique credentialing process that offers a single point-of-entry for providers to submit information that is used to determine a provider’s qualifications to treat patients and participate in health plan networks.

For HCAS, the relationship represents continued growth in New England. “CeltiCare Health is dedicated to administrative simplification efforts and this collaboration will further simplify administrative processes for providers,” said Lori Burgiel, Executive Director of HCAS.
